Power BI Intern

Description

We are looking for a **Power BI Intern** to join our team and assist in developing interactive dashboards and reports. This is a great opportunity to gain hands-on experience in business intelligence and data visualization.

Responsibilities

- Develop and maintain Power BI reports and dashboards.
- Extract, clean, and transform data from multiple sources.
- Optimize DAX queries and Power BI performance.
- Collaborate with business teams to understand reporting requirements.
- Assist in data modeling and report automation.
- Ensure data accuracy and security within Power BI reports.
- Stay updated with the latest Power BI features and best practices.

Qualifications

- Pursuing or completed a degree in Computer Science, Data Analytics, Business Intelligence, or a related field.
- Basic knowledge of Power BI, DAX, and SQL.
- Familiarity with data visualization techniques and storytelling with data.
- Strong analytical and problem-solving skills.
- Ability to work independently and as part of a team.
- Good communication and presentation skills.

Job Benefits

- Hands-on experience with real-world data analytics projects.
- Mentorship from experienced professionals.
- Opportunity to work with a fast-growing tech company.
- Certificate of internship completion.
- Potential for a full-time opportunity based on performance.
